Portfolio: https://hidden-waters-51372.herokuapp.com/

SUMMARY

Full stack developer with one year of front-end development experience passionate about web accessibility, performance, and usability. Recognized as detail oriented, analytical, and collaborative. Driven to make content that has a positive impact on the world. Graduate of Full Stack Web Development at Columbia University.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, jQuery, React, Bootstrap, Materialize, Responsive Design
Backend: Node, Express, AWS s3, MySQL/Sequelize, MongoDB/Mongoose, APIs, REST, GraphQL
Other: Object-Oriented Programing (OOP), Test-Driven Development (TDD), Progressive Web App (PWA)

PROJECTS

Dinnection
Deployed: https://nameless-harbor-84311.herokuapp.com - **Repo:** https://github.com/Sensus0/dinnection
Collaborated with a group of three to build a full-stack social media web app for artists to connect, view, and promote contemporary art. Built the backend, which included constructing the database models and creating routes, including routes to and from Amazon S3 buckets.

Travelers
Deployed: https://hannahhan153.github.io/Travelers/ - **Repo:** https://github.com/hannahhan153/Travelers
Collaborated with a group of four to build a full-stack web app for users planning travel within the United States during the COVID-19 pandemic. Used Fetch API to obtain current and historical weather and COVID-19 data.

Budget Tracker
Deployed: https://boiling-inlet-27031.herokuapp.com/ - **Repo:** https://github.com/MuboHouston/budget-tracker
Built a Progress Web Application that allows users to keep track of their finances. Users can add expenses and deposits to their budget with or without a connection.

EDUCATION

Full Stack Web Development Certificate Columbia University
December 2021- May 2022

Bachelor of Business Administration Brooklyn College, CUNY
